PROFESSIONAL SUMMARY

Backend Java Developer with a Bachelor's degree in Computer Science and practical experience in Java, Spring Boot, REST APIs, Spring Security, JPA/Hibernate, and automated testing. Has professional experience in backend development with Node.js, integration with SQL and NoSQL databases, bug fixing, and collaboration in an agile environment. Has a backend-oriented profile focused on security, code quality, clean code, and technical documentation, with an emphasis on progressing toward environments with microservices, integrations, CI/CD, and continuous improvement.

TECHNICAL SKILLS

Backend: Java 21, Spring Boot 3.5, Spring Security, OAuth2, JWT, JPA, Hibernate, Node.js, Express.js

Architecture and APIs: REST APIs, Swagger, OpenAPI, authentication, authorization, RBAC, layered architecture, basic knowledge of microservices

Databases: PostgreSQL, MySQL, MongoDB, SQLite

Testing: JUnit 5, Mockito, TDD, Jacoco, MockMvc, RestAssured, unit and integration tests

DevOps and Delivery: Docker, GitHub Actions, Git, CI/CD, Render, Vercel, Supabase

Cloud and Platforms: basic knowledge of AWS, Azure, and Google Cloud; basic knowledge of Kubernetes

Frontend: React, TypeScript, JavaScript, React Native

Data: Python, R, Pandas, NumPy, statistical analysis, predictive modeling

Methodologies and Practices: Agile, Scrum, Kanban, clean code, design patterns, code review

PROFESSIONAL EXPERIENCE

Backend Development Intern

Isaac Kennedy Desenvolvimento de Software LTDA | São Paulo, SP | Remote | 08/2025 - 11/2025

Contributed to the development and maintenance of backend applications in Node.js.

Implemented RESTful APIs and integrated relational (SQL) and non-relational (NoSQL) databases.

Fixed bugs with a focus on structured debugging, stability, and code quality.

Wrote automated tests and worked with code version control using Git.

Collaborated in an agile environment using Scrum and Kanban, following the technical evolution of the projects.

Technologies: Node.js, Express.js, REST APIs, SQL, NoSQL, Git, Scrum, Kanban.

Researcher I (Research Level I)

Institut Sophia Agrobiotech, INRAE - CEA Team | Sophia Antipolis, France | 01/2017 - 01/2019

Led multidisciplinary projects involving advanced statistical analysis in R and Python.

Developed predictive models for complex biological systems.

Published scientific results in English and worked with international teams.

Transferable skills: data analysis, complex problem-solving, methodological rigor, and technical documentation.

FEATURED PROJECTS

CVnoAlvo | Web Platform for Tailoring Resumes to Job Openings

Developed a web platform to tailor resumes to specific job openings, with compatibility analysis, user approval, and generation of ATS-optimized artifacts. Implemented the backend with Java 21, Spring Boot, PostgreSQL, Spring Security, JWT, REST APIs, and layered architecture. - Java 21, Spring Boot 4.x, Spring Security, JWT, PostgreSQL, Docker, use of artificial intelligence tools for development.

<https://www.cvnoalvo.com.br>

DSCommerce | Main Backend Project

Java, Spring Boot 3.5, Spring Security, OAuth2, JWT, JPA/Hibernate, PostgreSQL, Docker.

Developed a REST API with 15+ endpoints for e-commerce operations.

Implemented authentication and authorization with OAuth2 and JWT through Spring Security.

Modeled complex JPA entities and relationships, with a focus on domain organization and evolutionary maintenance.

Set up dev, test, and prod environments with deployment on Render and Supabase.

Documented the API with Swagger/OpenAPI and applied security and testing best practices.

Repository: <https://github.com/mateusribeirocampos/project-spring-boot-dscommerce>

Demo: <https://project-spring-boot-dscommerce.onrender.com/>

SYSPMP | Real-Time Management System

Node.js, Express, React, TypeScript, Socket.io, JWT, PostgreSQL.

Developed a full-stack system with real-time communication through Socket.io.

Implemented JWT authentication and role-based access control.

Created an administrative dashboard for operations and deadline tracking.

Repository: <https://github.com/mateusribeirocampos/sysmp>

EDUCATION

Bachelor's Degree in Computer Science | Universidade Anhembi Morumbi | 02/2022 - 01/2026

Doctorate (DSc) in Entomology | Universidade Federal Rural de Pernambuco | 08/2009 - 08/2013

Master's Degree (MSc) in Entomology | Universidade Federal de Viçosa | 08/2007 - 08/2009

Bachelor's Degree in Agronomy | Universidade Federal de Viçosa | 2002 - 2007

CERTIFICATIONS

Java Spring Expert (200h) | DevSuperior | 19/02/2026 | Credential: 6-23751

Java Spring Professional (120h) | DevSuperior | 18/12/2025 | Credential: 5-23751

Complete Java - Object-Oriented Programming + Projects (54.5h) | Udemy - Nélío Alves | 22/08/2025 | Credential: UC-82722477-e262-4e47-acef-406791d9c80e

BairesDev - Machine Learning Practitioner | June 2025

Complete C and C++ Language Course - Beginner to Advanced (20.5h) | Udemy | 12/09/2023 | Credential: UC-443774ad-dcb0-4f73-b381-8646b1da4434

LANGUAGES

English: Intermediate/Advanced (B2)

ADDITIONAL INFORMATION

Availability: immediate for remote or hybrid work, according to the position's needs.

Objective: work as a Junior Java Developer in an environment focused on APIs, testing, CI/CD, and continuous improvement.
